AT-SOLCHRMONITOR-AMV01

Remote Monitor for AM Series MPPT Solar Controllers

This LCD display product has been used as the remote display unit for our solar charge controllers. You can check the operation status and parameters on the display screen, also this monitor gives you access to set the system working parameters by pressing the required key buttons.

Key Features

- Designed for AMPTRON PV charge system monitoring
- Auto page down for easy viewing
- Easy install & connectivity
- Installed with LED indicators to display PV/Battery/Load/Error status
- Only 4 keys for multiple operation settings
- Includes RS485 communication protocol
