

DELKOR

S46B24R

Case size: JIS B24, NS60

The Delkor S46B24R AGM is a premium quality Absorbent Glass Mat battery designed for modern prestige, luxury and high performance vehicles, including those equipped with Idle Stop Start and recuperative braking systems.

This JIS B24 sized AGM battery features Powerframe® grid technology which provides significant improvements in durability and performance, even in the most extreme automotive applications. This battery can also be installed as a high performance upgrade for most LN6 flooded applications.

Features & Benefits

- Patented PowerFrame® grids extend battery life
- OE proven technology
- Designed for Idle Stop Start technology
- High charge acceptance
- High vibration resistance
- Certified non-spillable design
- Low self-discharge

Product details

- | | |
|---|--------------------------------|
| ○ 12V Absorbent Glass Mat Battery | ○ Reserve Capacity [min.] - 75 |
| ○ Suitable for ISS (Idle Stop Start) applications | ○ Length [mm] - 238 |
| ○ Assembly - LH Positive [+ -] | ○ Width [mm] - 128 |
| ○ Voltage [V] - 12 | ○ Height [mm] - 224 |
| ○ Battery Type - AGM Battery | ○ Weight [kg] - 13.3 |
| ○ Cold Cranking Amps [A] - 370 | ○ Terminal Type - JIS |
| ○ Battery Capacity [Ah] - 45 | |
