

DELKOR

LN1 554 400 053

Case size: DIN LN1, DIN44H

The Delkor 554 400 053 AGM is a premium quality Absorbent Glass Mat battery designed for modern high performance vehicles, including those equipped with Idle Stop Start and recuperative braking systems.

This LN1 sized AGM battery features Powerframe® grid technology which provides significant improvements in durability and performance, even in the most extreme automotive applications. This battery can also be installed as a high performance upgrade for most LN1 flooded applications.

Features & Benefits

- Patented PowerFrame® grids extend battery life
- OE proven technology
- Designed for Idle Stop Start technology
- High charge acceptance
- High vibration resistance
- Certified non-spillable design
- Low self-discharge

Product details

- | | |
|---|--------------------------------|
| ○ 12V LN1 Absorbent Glass Mat Battery | ○ Reserve Capacity [min.] - 80 |
| ○ Suitable for ISS (Idle Stop Start) applications | ○ Length [mm] - 206 |
| ○ Assembly - RH Positive [- +] | ○ Width [mm] - 175 |
| ○ Voltage [V] - 12 | ○ Height [mm] - 190 |
| ○ Battery Type - AGM Battery | ○ Weight [kg] - 15 |
| ○ Cold Cranking Amps [A] - 520 | ○ Terminal Type - SAE |
| ○ Battery Capacity [Ah] - 50 | |
