

DELKOR

AGM LN4 R

Case size: DIN LN4 R, DIN 77H R, DIN 75RH

The Delkor AGM LN4 R is a premium quality Absorbent Glass Mat battery designed for modern high performance vehicles, including those equipped with Idle Stop Start (ISS) and recuperative braking systems.

This LN4 sized AGM battery features Powerframe® grid technology which provides significant improvements in durability and performance, even in the most extreme automotive applications. This battery can also be installed as a high performance upgrade for many LN4 flooded applications.

Features& Benefits

- Patented PowerFrame® grids extend battery life
- OE proven technology
- Designed for Idle Stop Start technology (ISS)
- High charge acceptance
- High vibration resistance
- Certified non-spillable design
- Low self-discharge

Product details

- | | |
|---|---------------------------------|
| ○ 12V Absorbent Glass Mat Battery | ○ Reserve Capacity [min.] - 140 |
| ○ Suitable for ISS (Idle Stop Start) applications | ○ Length [mm] - 315 |
| ○ Assembly - LH Positive [+ -] | ○ Width [mm] - 175 |
| ○ Voltage [V] - 12 | ○ Height [mm] - 190 |
| ○ Battery Type - AGM Battery Maintenance free | ○ Weight [kg] - 22.9 |
| ○ Cold Cranking Amps [A] - 800 | ○ Terminal Type - SAE |
| ○ Battery Capacity [Ah] - 80 | |
